Mr. Greg Faught
Superintendent of Education

April 24, 2017

To Whom It May Concern,

I have known and worked with Mrs. Lori Snell for the past twelve years. She started at Enterprise High School as a Science teacher co-teaching students with disabilities. She then moved into the role of graduation coach and instructional partner and eventually transitioned to the district office in the position of Coordinator of Instructional Support. Regardless of the position she has held, several characteristics are never changing. Mrs. Snell pursues every endeavor with passion and relentless effort. At the root of her passion is creating an environment and opportunities for the students of Enterprise City Schools. Her work ethic is unmatched and her desire for continuous learning keeps her and her co-workers motivated. She has the ability to make those around her better, not only with her knowledge but the way she goes about her work.

Mrs. Snell would be an asset to any educational organization based on the aforementioned characteristics. As an educator, administrator, or instructional leader Mrs. Snell will make an immediate impact on your organization. Her profound knowledge of public education matched with her ability to develop ongoing adult professional learning creates a unique and hard to find skill set in our business.

It is my honor and privilege to recommend Mrs. Lori Snell for a position in your organization, If I can provide any additional information or answer any questions please don't hesitate to contact me at dlong@enterpriseschools.net or 334-347-9531.

Sincerely,

Danny Long
